## PONSSE H10

# MORE EFFECTIVE CUTTING AND PROCESSING

The PONSSE H10 harvester head offers unbeatable quality and productivity in a new size class. PONSSE H10 is intended for harvesting and processing using sturdy track-based machines. It has been designed and built for heavy-duty processing in demanding conditions. Its solid structure, firm grip and powerful feed guarantee a high efficiency ratio and reliability for years to come.

PONSSE H10 has been designed specifically for demanding harvesting conditions and tested by customers working on large diameter trees. No compromises can be made over durability and power at North American logging sites. H10 has been designed with advanced technology to be smart and sturdy.

Regardless of its large size and high power, H10 is highly precise. The Opti control system helps to feed the trees quickly and to cut them to the correct length, with high accuracy. It has been developed together with customers over several years. As a result, the harvester head is highly precise, enjoyable to use and easy to maintain.

# H10

## MEASUREMENTS

Weight:	from 2 600 kg (5,732 lbs) excl. rotator
Length:	2 120 mm (83.5 in)
Width (max):	2 080 mm (82 in)
Height without rotator, processing position:	2 360 mm (93 in)

## FEEDING UNIT

Feed system:	3 rollers
Calculated gross feed force:	43 kN (9,667 lbf)
Feed speed (max):	4.0 m/s (13.1 ft/s)
Feed roller opening:	895 mm (35.2 in)
Feed motors:	1 250/630 cc

## DELIMBING UNIT

Number of knives:	1 floating, 1 fixed, 2 or 3 moving knives
Opening of front knives (max):	900 mm (35.4 in)
Opening of rear knives (max):	930 mm (36.6 in)

Delimiting knives and feeding rollers are separately controlled.

Technical details and specifications may vary in different installations. These can be related to carrier, base machine or Ponsse harvester installations. standard and optional equipment.

2,360 mm  
(93 in)

2,080 mm (82 in)

## SAW UNIT

Hydraulic chainsaw	
Saw bar length:	1 100 mm (45 in)
Cutting diameter:	950 mm (37.5 in)
Chain:	3/4"

## TOP SAW

Saw motor:	19cc
Top saw bar:	750 mm (30 in)
Top saw cutting diameter:	600 mm (24 in)
Top saw chain:	0.404"

## TRACKED CARRIER

Operating pressure:	31 MPa (4,061 psi)
Carrier weight (min):	25 tons

## OPTIONAL EQUIPMENT

Plenty of optional equipment is available in addition to the comprehensive PONSSE H10 standard equipment. Consult your nearest Ponsse Service Center or dealer for more information on the standard and optional equipment.
